

SAIFULLAH SAFIYANU

Product & Partnership Operations · Workflow Automation · Applied AI

safiyanusaifullah@gmail.com · linkedin.com/in/saifullah-safiyanu · saifullahsafiyanu.github.io/saifullah-portfolio · Abuja, Nigeria · Open to remote

An early-career product-and-partnerships operator. I run go-to-market and product operations — audience targeting, offer design, research, documentation and outreach — and build n8n and OpenAI automations to scale the repeatable parts. I work both manually and with automation, bringing four years of laboratory-operations discipline (accuracy, SOPs, QA, documentation) into the work.

SKILLS & TOOLS

Strong practical experience: Product operations · Ideal-customer profiling & targeting · Go-to-market & offer design · Positioning & messaging · Competitor & market research · Outreach / sales ops · Documentation · n8n · OpenAI API · Workflow automation · Google Sheets · PhantomBuster

Working knowledge: Python · Node.js/Express · Supabase/PostgreSQL · HTML/CSS/JS · Git · REST APIs · LangChain agents · Prompt design · No-/low-code tools

EXPERIENCE

3C Training Ltd / SkillsBooster — United Kingdom · Remote

Jun 2025 – Present

- **Product & Partnerships Executive** (Jan 2026 – Present) — own product support, research and digital operations; run outreach to UK schools, colleges and Multi-Academy Trusts; prepare outreach content and partnership plans; maintain a professional LinkedIn presence; track and report lead generation and responses. Defined the ideal-customer profile, designed the free institutional pilot offer, and wrote the manual outreach SOP; built n8n/OpenAI/PhantomBuster automations to scale the repeatable steps.
- **Product Management Associate** (Jun 2025 – Dec 2025) — researched market and product suitability, contributed to product and website development, and supported SkillsBooster.com through user and competitor research.

Product Development Intern (12-week) — Global School Alliance (United Kingdom)

Feb 2025 – May 2025

- Ran market and competitor research and validated features through structured testing and documentation.

Earlier healthcare & field-operations experience — MSF · Qadara Diagnostics · Extreme Hospital · New Incentives

2021 – 2025

- Medical laboratory roles (technician, technologist, supervisor) and field data-collection work — accuracy, SOP compliance, quality control, documentation, inventory management and structured data capture.

SELECTED WORK

Product & partnership operations — ideal-customer profile, free-pilot offer framework, and a manual, account-safe outreach SOP driving SkillsBooster's UK partnership growth.

AI Skills Reflector — 12-node live n8n AI agent (OpenAI + Whisper + Supabase memory) that coaches students through the STAR method; live on skillsbooster.com.

Lead-Research & Outreach Automation — four connected n8n workflows (PhantomBuster, OpenAI, Google Sheets, Gmail) that collect leads, write messages, send requests, track responses and route follow-ups, with human oversight.

EDUCATION & CERTIFICATIONS

B.Sc. Applied Artificial Intelligence — IU International University of Applied Sciences (Germany) · expected Aug 2028

Professional Diploma, Medical Laboratory Technology — Bill & Melinda Gates College of Health Technology ·

2017–2021 · *Distinguished Student Award*

AI Career Essentials – ALX · Project Management Essentials – MSI · Quality Assurance for Medical Product · PSEA & Soft-Skills · Safety & Security (BSAFE) – UNDSS

COMMUNITY

RLabs Ambassador — connecting young people to digital skills and scholarship pathways. Founder, Alkibla Initiative — youth mentorship & digital-skills programmes.
