

SAIFULLAH SAFIYANU

AI Operations & Workflow Automation · Product Operations · Applied AI

safiyanusaifullah@gmail.com · linkedin.com/in/saifullah-safiyanu · Abuja, Nigeria · Open to remote international roles

An early-career operator working in AI Operations, Workflow Automation and Product Operations. I design and run automations in n8n with the OpenAI API, ship internal tools, and turn manual processes into reliable systems — bringing four years of laboratory-operations discipline (accuracy, SOPs, QC, documentation) into applied AI.

SKILLS & TOOLS

Strong practical experience: n8n · OpenAI API · ChatGPT · Gemini · Workflow automation · Google Sheets automation · PhantomBuster · Product operations · Documentation · Competitor & user research · Prompt design · Webhooks

Working knowledge: Python · Node.js/Express · Supabase/Postgres · HTML/CSS/JS · Git · REST APIs · LangChain agents · No-/low-code tools

EXPERIENCE

3C Training Ltd / SkillsBooster — United Kingdom · Remote

Jun 2025 – Present

- **Product & Partnerships Executive** (Jan 2026 – Present) — manage strategic outreach to UK schools, colleges and Multi-Academy Trusts for the SkillsBooster AI Reflector; use n8n automation and applied AI to streamline product support, onboarding and outreach; own automations end-to-end.
- **Product Management Associate** (Jun 2025 – Dec 2025) — support product development for digital learning tools including SkillsBooster.com; conduct user and competitor research; align product goals from design to deployment.

Product Development Intern (12-week) — Global School Alliance (United Kingdom)

Feb 2025 – May 2025

- Ran market and competitor research and validated features through structured testing and documentation.

Earlier healthcare & field-operations experience — MSF · Qadarah Diagnostics · Extreme Hospital · New Incentives

2021 – 2025

- Medical laboratory roles (technician, technologist, supervisor) and field data-collection work — accuracy, SOP compliance, quality control, documentation, inventory management and structured data capture.

SELECTED PROJECTS

AI Skills Reflector — 12-node live n8n AI agent (OpenAI LLM + Whisper voice, Supabase memory) that coaches students through the STAR method and outputs CV bullets, LinkedIn lines and saved reflections.

Partnership Lead-Research & Outreach Automation — four connected live n8n workflows (PhantomBuster, OpenAI, Google Sheets, Gmail) automating lead research, tracking, message drafting and follow-up preparation, with human review before sending.

Voice-to-Text Service — Node/Express + OpenAI microservice that transcribes uploaded audio to clean JSON.

EDUCATION & CERTIFICATIONS

B.Sc. Applied Artificial Intelligence — IU International University of Applied Sciences (Germany) · expected Aug 2028

Professional Diploma, Medical Laboratory Technology — Bill & Melinda Gates College of Health Technology · 2017–2021 · *Distinguished Student Award*

AI Career Essentials – ALX · Project Management Essentials – MSI · Quality Assurance for Medical Product · PSEA & Soft-Skills · Safety & Security (BSAFE) – UNDSS

COMMUNITY

RLabs Ambassador — connecting underserved youth to digital skills and scholarship pathways. Founder, Alkibla Initiative — youth mentorship & digital-skills programmes.
